
Video Mosaic Info?

Posted by photogenix - 2010/03/25 10:40

I do professional photography and I'm always looking for something new and cutting edge. I've noticed these video mosaics popping up more and more on TV advertisements and other promotional spots. I have even had a few of my clients ask if it was possible to have one done as a short wedding video.

Is there software I can buy to do this? Or are there any companies out there able to do it? I'm not really sure what it entails, so any info would be greatly appreciated.

Thanks!
