## Large-Scale Printing Services

Hello,  
I have created my own mosaic and I'm trying to find a place to print it. Can anyone recommend a cheap print service that can print a seamless 3'x4' poster??? I tried the fedex/kinkos near me and they could not even open the file (200mb TIF)...

Hey there SparkyNanny,  
Great question...I found myself in the same dilemma about a month ago with a photo mosaic I created for my parents. You will either have to find a high end print shop with some top end machines, or go online; I ended up using Picture Mosaics print service and was very happy with the results. Here is a link:

Happy mosaic-ing!
